校長的話

From the President

各位新進老師：

恭喜您在這個瞬息萬變的年代，加入教育這條充滿理想與挑戰的道路。2025 年的世界，比過去任何時候都更加複雜與動盪。美國總統川普的關稅政策引發全球貿易與地緣政治的波動，臺灣也因地緣政治風險，彷彿在教育與政治變革中同時步入一場風暴。科技的迅猛進步，特別是人工智慧，正在徹底改變我們生存與學習的樣貌，這些巨浪無不深刻影響著產業、社會與教育現場。但正因為挑戰如此嚴峻，這也成為一個重新定義教育意義的珍貴契機。

在台灣，少子化的浪潮正迅速襲來，學齡人口減少的衝擊遠比我們原先所預想的更加猛烈。這場挑戰不僅是數字的下滑，更是一種深層的結構性震盪，迫使許多學校不得不重新思考自身存在的價值與未來定位。也正因如此，當前這個時代，比以往任何時刻都更需要教育者展現勇氣、同理心與創新的決心。

孔子曾言：「學而不厭，誨人不倦。」當世界充滿不確定，這句話更顯珍貴。成為一名大學教師，不只是職業或榮耀，而是一種責任、一份深刻的信念。它意味著：在最艱難的年代，依然用知識去點燃學生的心靈，用陪伴去滋養他們對未來的盼望。

在我們的生命經驗裡，每個人都曾在某位老師的眼神或一句話語中，獲得無形的勇氣。如今，換我們站在講台上，用同理心去傾聽，用熱情去引導。也許只是一句溫暖的提醒，便能照亮學生長遠的道路。

然而，理想必須在現實裡生根。當前環境嚴峻，私立大學資源有限，少子化與國際競爭加劇，如何在重重挑戰中兼顧教學與研究，將研究成果融入課程，啟發學生的思辨與創造，是每位教育者必須勇敢面對的試煉。這條路絕不輕鬆，但「天道酬勤」，只要堅持努力，終將看見纍纍碩果。

在全體師生的共同努力下，東海大學不僅在 2024 年《泰晤士高等教育》世界影響力排名中躋身全球百大，2025 年《泰晤士高等教育》世界影響力排名中更拿下國內公私立大學中的四個第一，今年第六屆《遠見》USR 大學社會責任獎中也一舉奪下四項大獎，成為全台獲獎數最多的私立大學。

這份榮耀，不只是對過去努力的肯定，更是一種對未來的召喚：東海以基督教精神立校，面對挑戰更要以仁愛與堅毅回應。在少子化衝擊與國際局勢動盪之際，我們必須以更開放的胸懷、更深刻的反思，擔起教育改革與社會貢獻的責任，讓東海成為一座不斷革新、始終溫暖的教育燈塔。

親愛的同仁，教育從來不是一條安逸的路，而是一場對信念的考驗。無論局勢如何險峻，盼望您始終保持對學生的熱愛，對知識的渴望，對時代的關懷。願您以積極的態度迎接挑戰，在教學與研究中找到屬於自己的成就與喜悅，成為一位與時俱進、持續學習的教育者。

讓我們一起攜手，在這個多變的時代，為年輕世代與社會貢獻一份光與熱，即使風浪洶湧，我們依然選擇彼此扶持，共同前行，讓教育的燈火永不熄滅。

敬祝 工作順利 教學研究並進

3. 基督教聯董會訪問學者計畫 **United Board Fellows Program**

基督教聯董會訪問學者計畫 旨在呼應亞洲大學及學院職涯期間教師和管理人員的領導力發展的需求。透過該計劃，聯合董事會培養充滿活力的領導者，促進全人教育在其所屬機構的發展。

The United Board Fellows Program is designed to meet the needs of faculty and administrators from Asian colleges and universities seeking mid-career positions. Through this program, the United Board develops dynamic leaders who will advance holistic education at their home institutions.

傳統上，這一年的經驗涵蓋獨特的高等教育領導力發展，主要由三個組成部分組成 - 兩週的密集夏季學院；持續一至四個月的實習或亞洲兩週的研學之旅；以及最後的研討會。

Traditionally, this year-long program provides a unique leadership development experience in higher education with three major components: an intensive two-week summer institute, a one- to four-month internship or two-week study tour in Asia, and a culminating seminar.

由於疫情和持續的旅行限制，基督教聯董會在計劃設計中導入改變。首先，為期兩週的密集夏季學院將以虛擬方式分開進行，每兩週的星期四和星期五舉行半天的課程，持續八個月。其次，新計劃中不強制要求實習或研習之旅。然而，學者若有興趣，仍可選擇進行為期兩週的亞洲地區研學之旅（不包括澳洲和紐西蘭）。聯合董事會還將繼續根據疫情發展重新評估未來的計劃設計。

Due to the pandemic and the continuous travel restriction, the United Board has introduced some changes to the program design. The two-week intensive summer institute will now be conducted virtually over eight months, with half-day sessions take place over every second Thursday and Friday. Additionally, the new program does not mandate a compulsory placement or trip. However, scholars who are interested have the option to participate in a two-week study trip within or outside of their home country in Asia (excluding Australia and New Zealand). The United Board will also continue to re-evaluate our future program design as the pandemic evolves.

勞作教育暨社會實踐處

Office of Experiential Learning and Social Practice (also known as the Student Labor Program)

勞作制度是本校創校時，即實施的獨特教育方式之一，更是國內各大學中率先倡導，最具開創性的教育制度。第一任校長曾約農教授曾表示，勞作與課程在教育制度中有相輔相成的效果，做人與治學在教育精神上雙翼並重。因此，勞作教育處自詡是「態度重建的工程師」，透過有計畫的勞作行動，引導學生對自我、人我與物我關係進行反思與重建，促使他們有機會改變回應世界的方式，進而成為一個對事用心、對人關心、對環境有情的現代公民。

The Office of Experiential Learning (also known as the Student Labor Program, hereinafter referred to as the Office) is a unique facet of the University's educational methodology that has been in practice since the founding of the school. It is yet another example of a pioneering educational system in comparison to the other universities in Taiwan. The University's first president, Dr. Yue-Nong Zeng, said that the Student Labor Program and curriculum would complement each other in the education system as students' character and pursuit of studies are of equal importance for education. The Office is therefore praised as "an engineer that reconstructs attitude." Through a series of strategically planned labor and community service actions, the Office guides students to reflect on the self, interpersonal relationships with others, and the environment. This offers them the opportunity to respond to the world differently and become a modern citizen who does things with their best, cares for the others, and is responsible for the environment.

勞作教育暨社會實踐處下設三組：基本勞作組、助學勞作組及社會實踐組，主要任務如下：The Office has three sections: Section of Sustainability Practice, the Work-Study Section, and Section of Social Practice. Their primary missions are as follows: :

一、基本勞作 Sustainability Practice

基本勞作為必修一學分，大一新生及轉學生建議在入學第一年時修習一學年的基本勞作。一年的勞作教育分兩學期，每一學期18小時學生自主選填時段以及課程內容。我們開設有五大永續領域：環境永續、社會永續、文化永續、生活永續、生態永續，透過勞作行動與SDGs永續發展目標做結合，藉此了解減碳、生活節電與生態保育的知識；增進對校園景物以及文化的瞭解；以大學社會責任為基礎加深為社會能做出貢獻的機會；也同時學習如何與不同系別、個性的同學共事，擴大人際適應彈性。

The Sustainability Practice is now a mandatory course worth one credit. It is recommended that all first-year students and transfer students complete this one-year course during their first year of enrollment. The year-long Sustainability Practice is divided into two semesters, with each semester consisting of 18 hours. Students are free to choose their own time slots and course content. We offer five major sustainability fields: Environmental Sustainability, Social Sustainability, Cultural Sustainability, Life Sustainability, and Ecological Sustainability. By combining practice actions with the Sustainable Development Goals (SDGs), students can gain knowledge about carbon reduction, energy-saving lifestyles, and ecological conservation. This also enhances their understanding of campus scenery and culture, deepens opportunities to contribute to society based on university social responsibility, and simultaneously allows them to learn how to work with students from different departments and with different personalities, thereby expanding their interpersonal adaptability.

二、助學勞作 Work-Study

東海大學每學年提供近4千萬，幫助經濟有需要的學生，經由專責工讀生導師暨生活服務學習等助學機制，扶助經濟弱勢學生，並提供類職場的實境服務。校內各單位工讀機會開放、即時布達於本校助學勞作資訊系統，時薪制（每小時薪資依據勞基法辦理）。生活服務學習則循大專院校弱勢學生助學計畫辦理，凡符合申請資格經審查錄取者，每月可獲得6,200元的生活助學金，服務單位為秘書室、學務處、總務處、圖資處、勞教處等等，服務內容重視公共性、發展性與公益性，辦理教育訓練，以建構學生敘事能力與培養正向思

維，儲值與提升未來進入職涯的優勢能力。

The University spends nearly NTD 40,000,000 each academic year to assist students with financial needs. Through student aid mechanisms, the Office's advisory counselors manage to support economically disadvantaged students by offering them different work experiences through on-campus part-time jobs provided by all university units. These work opportunities paid by hourly wage (please refer to the Labor Standards Act) are announced on the University's Work-Study Information System. Additionally, the life service-learning program is carried out according to the "Student Assistance Plan for Disadvantaged Students of Colleges and Universities." Those qualified for the application and admitted upon review will receive NTD 6,000 each month for living expenses. The Secretariat Office, the Office of Student Affairs, the Office of General Affairs, Office of Library And Information Services, and the Office of Experiential Learning and Social Practice, provide jobs and organize education and training accordingly. These programs help students develop their narrative ability, cultivate them with positive thinking, and further enhance their future career strengths.

三、社會實踐 **Social Practice**

社會實踐組負責全校社會實踐有關計畫及課程的整合，推動大學社會責任(University Social Responsibility, USR)實踐計畫、專業服務學習課程、海外服務等業務，同時透過「全校社會實踐資訊整合平台」(<https://se.thu.edu.tw>)，呈現本校豐富多元的社會實踐成果，以及在聯合國永續發展目標(SDGs)上的努力與貢獻。

From February 1, 2023, the Library and the Computer Center were combined as the Office of Library and Information Services(LIS)。

The Library system in Tunghai Univ. consists of the Main Library, the MC Branch, and some of the departmental expertise libraries. In recent years, the Library has been transformed into an academic usage space that meets the requirement of the digital-aged college students under the concept of “freeing up space and optimizing services”. The Main Library building, built in 1974, is located at the end of Wenli Avenue. In recent years, through large-scale space renovation, the physical collection has been moved to a depository, and several multi-purposed learning spaces have been renovated and added, such as an information retrieval area , an iMac multimedia area, a reading and sharing area, a group discussion room, a study room, a brainstorming area (a medium-sized meeting room), a quiet reading area, a leisure reading area, and a special exhibition area. At the same time, the collection of electronic resources has been greatly expanded to create a virtual and real knowledge ecosystem that satisfies the learning and research life of teachers and students. The School of Management Branch Library is located on the second floor of the School of Management Building in the Second Teaching Area, with a collection of business and management books, and a Creative Workshop (a multi-functional discussion room), which provides an environment for teachers and students

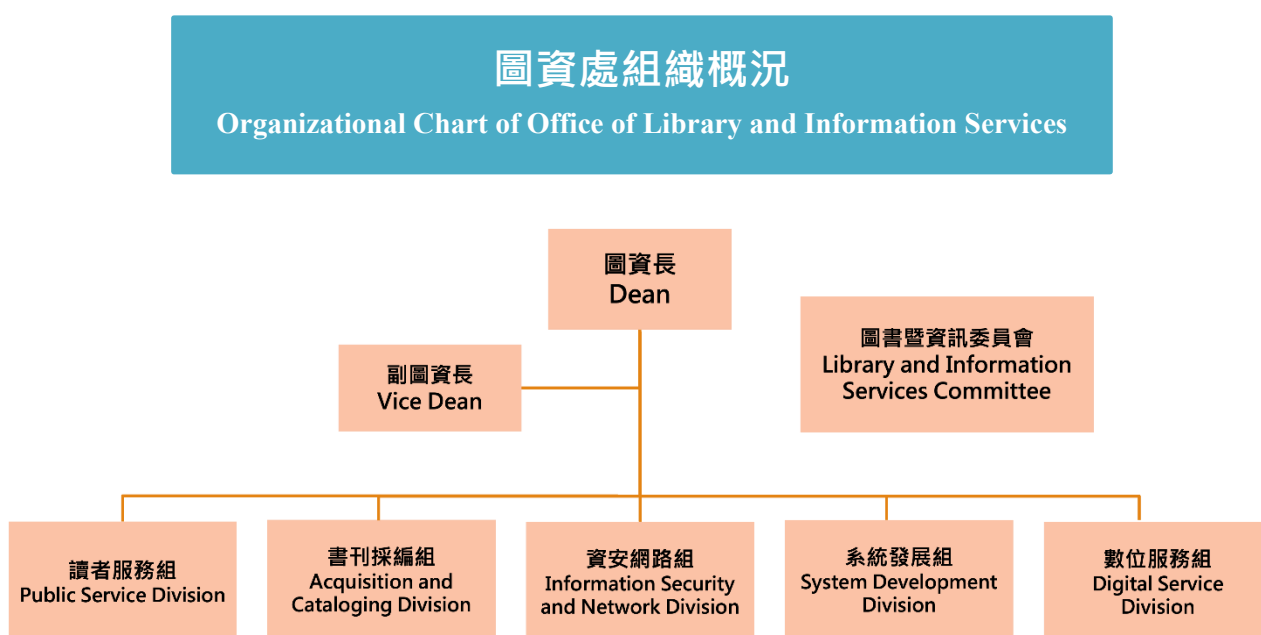

of the School of Management to learn, create, and integrate together, and serves as an important base for teaching and research.

東海大學校訓：求真、篤信、力行

東海大學教師幫助學生找到天賦與呼召，建造學生的專業知識與生命，

「以信心獲得真理，以行為彰顯所信」，榮神益人。

The motto of Tunghai University: Truth, Faith, and Deeds

The faculty of Tunghai University help students find their talent and calling, build up their professional knowledge and life, and "glorify Him by deeds with the truth obtained through faith."

本校是一所基督教大學，但並不是以傳教為目的的宣教團體，而是將信仰與知識連結於生命的教育機構。1955 東海創校時即揭示三大辦學方針：品格養成與專業能力並重；建立非唯物思想的世界觀；以及基於基督教信仰的實踐力。其教育理念根植於對上帝深刻的信靠，對生命無比的熱愛，對人性深入的體認，對知識創新的追求。我們的教育是以全人的取向來進行的，培養學生專業的智能，更幫助學生有能力解決人生的各種問題，提出理解的方法，學習從哲學、科學、歷史、社會、文化、信仰和宗教等角度來思考探索，以建立安身立命的基礎，能以面對與時俱進的人生問題。

Tunghai University is a Christian university. Instead of being a missionary group that preaches to the converted, Tunghai University is an educational institution that links faith and knowledge to life. Upon establishment in 1955, Tunghai University established three significant school policies: regarding character cultivation and professional competence as equally important, establishing an immaterial world view, and cultivating the power of practice based on the Christian faith. Tunghai University's educational philosophy is rooted in God's full faith, genuine love for life, the highest realization of humanity, and pursuit of knowledge innovation. Our education is based on a holistic approach, where we aim to cultivate students' professional intelligence. We also help students solve various problems in life, propose a way of understanding these problems, and learn to think and explore philosophy, science, history, society, culture, faith, and religion. These help our students build a firm foundation on which their life and spirit can depend, helping them confront problems at different life stages.

全人統整及關照多元發展的教育取向是東海大學教育理想的特出之處，使學生的智性、德行、靈性、社會、生涯和文化的各發展層面關聯起來。而基督信仰的底蘊、博雅教育的精神、服務勞作的素養、優美人文的情懷，正是東海獨特的氣質。校牧室致力於與全校共同發揚「人格統整，真理為體、信行為用」的教育理念。

The educational approach based on holistic integration and multiple developments makes Tunghai University's educational ideas unique. It also helps students relate all levels of their growth in intelligence, virtues, spirituality, social connections, career, and culture. The connotation of Christianity, the spirit of general education, the mastery of labor education, and a touch of fine arts together form Tunghai University's unique temperament. The Chaplain's Office is devoted to carrying forward the educational ideals of "Truth, Faith, Deeds—Truth attained through Faith expressed by Deeds" together with the entire school.

校牧室掌理全校基督教相關事務，及師生靈性培育活動，以豐富但不強迫的信仰生活型態，使全校師生在東海擁有充實的生活和豐盛的生命。

The Chaplain's Office (hereinafter the Office) is in charge of the entire school's Christian affairs and spiritual cultivation activities. With abundant but not enforced beliefs and lifestyle, the Office succeeds in enriching the living and life of all faculty and students of the University.

校牧室位於本校路思義教堂的軸線上，與教堂在造型與方位上互相呼應，連結教學區與生活區（女生宿舍、餐廳、郵局、社團）。舉凡有興趣探索信仰，或是生活中有莫名壓力煩惱的師生，都竭誠歡迎。

Located in between the teaching area and living area (Women's Residence Hall, dining areas, and university clubs), the Office is located at the University's Luce Chapel axis. It echoes the chapel's design and position. Faculty or students who are interested in exploring faith or who have indescribable pressures or worries are welcome to visit us.

博雅書院

Po-Ya School

東海大學自創校迄今，一直是個文理平衡社會當責的全人高教場域，而博雅是東海大學教育的底蘊，書院是東海創校傳統的承襲。東海大學的博雅底蘊是呈現在以下七項核心能力：Critical Thinking 批判性思維；Communication 表達溝通；Collaboration 團隊合作；Creativity and Innovation 創意與創新；Cross-Cultural Understanding 跨文化理解；Characters/Ethics 品格/倫理；和 Community Engagement 社區參與。書院承襲東海早期的學習場域，運用核心知識、體驗實踐、自主學習和家族生活教養四個培育架構，跨域書院生本科系的專業課程、交叉連結相輔相成。創院 17 年來初衷未變，擴展視野，教室外體驗，社區服務，培育堂正的品格與價值觀，建立積極實踐、慎思明辨的態度與人生。

Since our establishment, the University has been an institution of higher education with a strong commitment towards social accountability with holistic and balanced development in the arts and sciences. Po-Ya meaning "liberal arts education," embodies the educational implications of the University and is considered the inheritance of its founding traditions. The impact of Tunghai University's liberal arts education is presented in the following seven core competencies: critical thinking, communication, collaboration, creativity and innovation, cross-cultural understanding, character and ethics, and community engagement. Inheriting the University's early focus, the Po-Ya School has developed a cultivation structure based on "core knowledge," "experience and practice," "proactive learning," and "life-long learning" (through the Po-Ya family). These four blocks can facilitate the interdisciplinary cultivation of talents, fortify students' competencies in major-related courses, and support multidisciplinary interactions. Over the last 17 years since its establishment, the Po-Ya School has never changed its original intention. Apart from expanding its visions, holding outdoor experiences, promoting community services, and cultivating upright character and values, it also helps students build a proactive and discerning attitude toward life.

書院有一群熱心教育關心學生的生活導師，以小家族的模式陪伴書院生四年，養成正向樂觀進取的生活態度，領悟人際關係互助合作，提升面對人生各層面各階段的成熟度。書院獨特的自主學習方式，廣泛接觸，主動探索，從小型提案到團隊合作的 APL，系統性培養發現並定義對社會人類有價值的問題與創新解決方案的領導能力。自 2008 年來參與博雅書院的家族導師及功能性導師先後總計約 30 餘位，每年依書院生人數比例調整輪休。目前書院由 15 位家族導師帶領各自的家族助手協調家庭聚會及各項活動，並組成 3 個 House，各有 1 位 House Master 負責統籌，增進書院家族之間的凝聚力，分擔導師之間合作聯誼，並提倡 House

之間的競爭性育樂活動。

The Po-Ya School has a group of life mentors who are enthusiastic about education and caring for students. In addition to creating a family-like mentorship to accompany students in their four-year university life, these family mentors also help students to develop a positive, optimistic, and enterprising attitude towards life; to understand the interpersonal relationship, mutual assistance, and cooperation; and to further enhance their maturity to confront challenges at different stages of life. This proactive learning model uniquely developed by the Po-Ya School enables students to have extensive contacts and explore the world actively. From small proposals to a teamwork-based Active Project Learning (APL) approach, the School systematically cultivates students' ability to define questions that are valuable to human society and shapes their leadership role in finding innovative solutions. From 2008 until now, around 30 family mentors and functional mentors have joined the Po-Ya School; and, each year, the mentors have their holiday roster adjusted according to the number of the Po-Ya School's students. Currently, the Po-Ya School has 15 family mentors who lead their family assistants to coordinate family gatherings and various activities. These mentors also established three houses led by one housemaster. The housemaster is in charge of overall planning, enhancing the cohesion among family members, supporting cooperation and friendship among mentors, and promoting competitive and entertainment activities among the houses.

除了週五例行的導師沙龍共學聚會、跨領域專業分享、讀書會、以及執行書院教育的經驗交換外，每學期亦舉辦博雅導師退思會 - 提升博雅素養及視野的體驗活動：「教育無他，愛與榜樣而已」。同時，博雅書院鼓勵師生以共學方式參與各項提升博雅素養的自我突破活動，一方面擴展教師自身的生命深度與視野，一方面經由實地的體驗及投入讓自己成為典範，並實踐在教學、研究與學生輔導中。書院每學期皆舉辦兩天的教師研習會，對書院的運作、學生的學習、課程活動的設計、以及大學教師在面對教學、研究、輔導及家庭壓力時該如何面對等議題進行反思，檢討與修整方針以展望未來。

In addition to the "Mentors' Salon" every Friday for interdisciplinary exchanges on liberal arts education, the Po-Ya School also holds a Po-Ya Mentors' Reflection Meeting every semester to enhance liberal arts literacy and vision. We believe that "education is nothing but a concern for love and role model." In the meantime, faculty and students are encouraged to join various self-breakthrough activities through playgroups to ameliorate their liberal arts literacy. This will help the faculty expand the depth and vision of life and become a model while practicing teaching, research, and student counseling services through virtual experience and involvement. Each semester, the Po-

Ya School holds a two-day faculty seminar to reflect on the School's operations, students' learning performance, curriculum design, and how the university faculty can deal with pressure from teaching, research, counseling, and family. The reflection meeting enables the School to review and adjust the policy and to look into the future.

博雅導師培育：鼓勵有意願加入書院的教師參加各項教師共學、主題研習、體驗教育及海內外服務學習活動，並先不安排其執行第一線博雅教學及學生輔導工作，而以儲備訓練作為種子教師為首要。同時，在書院教師社群成員間設立師徒制，由研究、教學、學生輔導及博雅素養等皆有卓著表現之教授擔任 mentor，幫助新進教師在各專業層面有所成長。竭誠歡迎您加入博雅導師團隊。

Cultivation of Po-Ya mentors: Faculty who desire to join the Po-Ya School are encouraged to join various teachers' playgroups, thematic seminars, experiential education, and service-learning activities inside and outside the country. Instead of being appointed to teach liberal arts and giving counseling to students on the front line, the faculty will be trained as a "seed mentor." Moreover, mentorship is established among members of the School's faculty community, where professors with extraordinary performance in research, teaching, student counseling, and liberal arts literacy are appointed as mentors to assist new faculty in growing in all professional prospects. The Po-Ya School sincerely invites you to join the mentor team.

The iLearn digital learning platform supports blended learning by integrating online virtual instruction with in-person classroom experiences. It features four key functions: cloud-based services, mobile learning, flipped classroom support, and learning analytics. By incorporating a variety of learning tools, iLearn provides students with a more diverse and engaging learning experience, while enabling them to track their course progress and learning activities in real time. Instructors can design interactive classroom content—such as real-time feedback or instructional surveys—that students can respond to directly through their mobile devices, effectively enhancing class participation. Furthermore, through learning analytics, instructors can access data on students' online engagement, including time spent on the platform and levels of interaction with instructional materials and videos. This allows teachers to monitor student learning progress and adjust their teaching strategies accordingly.

The University's tMoodle digital teaching platform utilizes an open-source online learning system used in over 150 countries worldwide and supports more than 70 languages. Through the tMoodle platform, faculty members can manage courses and conduct teaching activities, including uploading or sharing teaching resources, submitting assignments online, taking online quizzes, participating in discussion forums, and completing surveys. However, since the iLearn teaching platform introduced in the 2018 academic year (107 ROC year) offers improved support for various devices and is more user-friendly, the tMoodle will stop course synchronization, updates, and customer support starting from the 2025 academic year (114 ROC year), and will be officially shut down in the 2026 academic year (115 ROC year).

Equipment purchase fee: The administrative fee for purchasing instruments and equipment (including the service fee) needs to be 10% of the amount in purchasing equipment.

- (2) 行政管理費：計畫總簽約金額扣除設備費後餘額之 15%；計畫若有特殊需要與正當理由需委外者，得簽請校長同意後調整之。

Administrative fee: The administrative fee should be 15% of the amount remaining after deducting the equipment purchase fee from the contracted project amount; projects requiring outsourcing due to special or justifiable reasons may deduct related fees upon approval from the president.

2.2.9 專利申請、技術授權程序 Application for International

Academic Conference Grants

1. 專利申請 Patent Applications

依本校「研究發展成果管理辦法」，本校人員職務上產生之研發成果具可專利性者，得向研究發展處提出申請，經審查通過者，所需申請及維護費用由本校與發明人按比例負擔；審查未通過者，得自費由研究發展處協助申請，於取得專利權後，轉由研究發展處管理、維護。

According to “THU Regulations Governing the Management of Research and Development Results,” THU personnel whose research results are potentially patentable may apply for a patent application through the Office of Research and Development. Upon the patent application being approved, the University and inventor will share the application and maintenance costs. If it does not go through, the inventor shall pay the application fee; the Office of Research and Development will nevertheless assist with the application process. Once the patent application goes through, the Office of Research and Development will oversee patent management and maintenance.

本校發明人或創作人以本校名義申請專利，並經研發成果管理委員會審議者，其專利申請之申請費(包含但不限於申請、審查、再審查、答辯等程序費用)、證書費、專利年費、事務所手續費及其他依法令應繳納之專利規費等(以下簡稱「專利費用」)，依下列原則辦理：

If an inventor or creator from the University applies for a patent in the name of the University and it is reviewed by the Research Outcome Management Committee, the patent application fees (including but not limited to application, examination, re-examination, response procedures), certificate fees, annual patent fees, office handling fees, and other legally required patent fees (hereinafter referred to as "patent fees") shall be handled according to the following principles:

專利費用扣除資助機關補助金額後，其餘費用之負擔比率得由本校人員之發明人或創作人依下列方案自行選擇其中之一，並經研發成果管理委員會決議之；本款之分攤方案將影響研發成果收益之分配比率：

After deducting the subsidy amount from the funding agency, the remaining patent fees shall be borne by the inventors or creators among the University personnel according to one of the following options, which shall be decided by the Research Outcome Management Committee. The selected cost-sharing option will affect the

distribution ratio of the benefits from research and development outcomes:

- (1) 本校分攤比率：100%·發明人或創作人分攤比率：0%。
The University 100%; the inventor 0%.
- (2) 本校分攤比率：50%·發明人或創作人分攤比率：50%。
The University 50%; the inventor 50%.
- (3) 本校分攤比率：0%·發明人或創作人分攤比率：100%。
The University 0%; the inventor 100%.

發明人應依上述規定繳付應負擔之專利費用後，本校方得進行專利申請及維護程序。

After the inventors have paid the patent fees they are responsible for according to the above regulations, the University will proceed with the patent application and maintenance procedures.

本校專利費用以分階段收取繳付為原則，發明人應依研究發展處通知之申請、領證及維護階段款項一次繳付，並依照實際發生金額由發明人預付款項扣除後，不足時將通知發明人補繳；階段款項若有賸餘則納為下一階段之預付款，待專利終止維護或完成最後階段繳費，賸餘金額即歸還發明人。

The patent fees of the University shall be collected and paid in stages. Inventors should pay the fees for the application, certification, and maintenance stages in one lump sum as notified by the Office of Research and Development. These fees will be deducted from the prepayments made by the inventors based on the actual incurred amounts. If there is a shortfall, the inventors will be notified to make up the difference. Any surplus in the stage payments will be carried over as prepayments for the next stage. When the patent maintenance is terminated or the final stage payment is completed, the remaining surplus will be refunded to the inventors.

發明人應分攤之專利費用，經催繳三次仍拒絕或延遲不繳納時，研究發展處即停止發明人申請中之專利案件程序，並得拒絕發明人未來之專利申請提案。 Suppose the inventor refuses or delays to pay the patent fees after three reminders. In that case, the R & D office will stop the patent application process and may reject the patent application proposal in the future.

專利獲准後，屬本校所有者，其維護年限以三年（第一期）為原則，第一年至第三年（第一期）之專利維護費用，依前條規定分攤；第四年起每隔三年（或每一期）由研發成果管理委員會審議檢討該專利繼續維護之必要性。

Once a patent is granted, which is owned by THU, the general maintenance period is three years (the first term). The maintenance fees for the first to the third year (the first term) will be shared according to the provisions of the previous article. Starting from the fourth year, every three years (or every term), the necessity of continuing the maintenance of the patent will be reviewed and assessed by the Research and Development Results Management Committee.

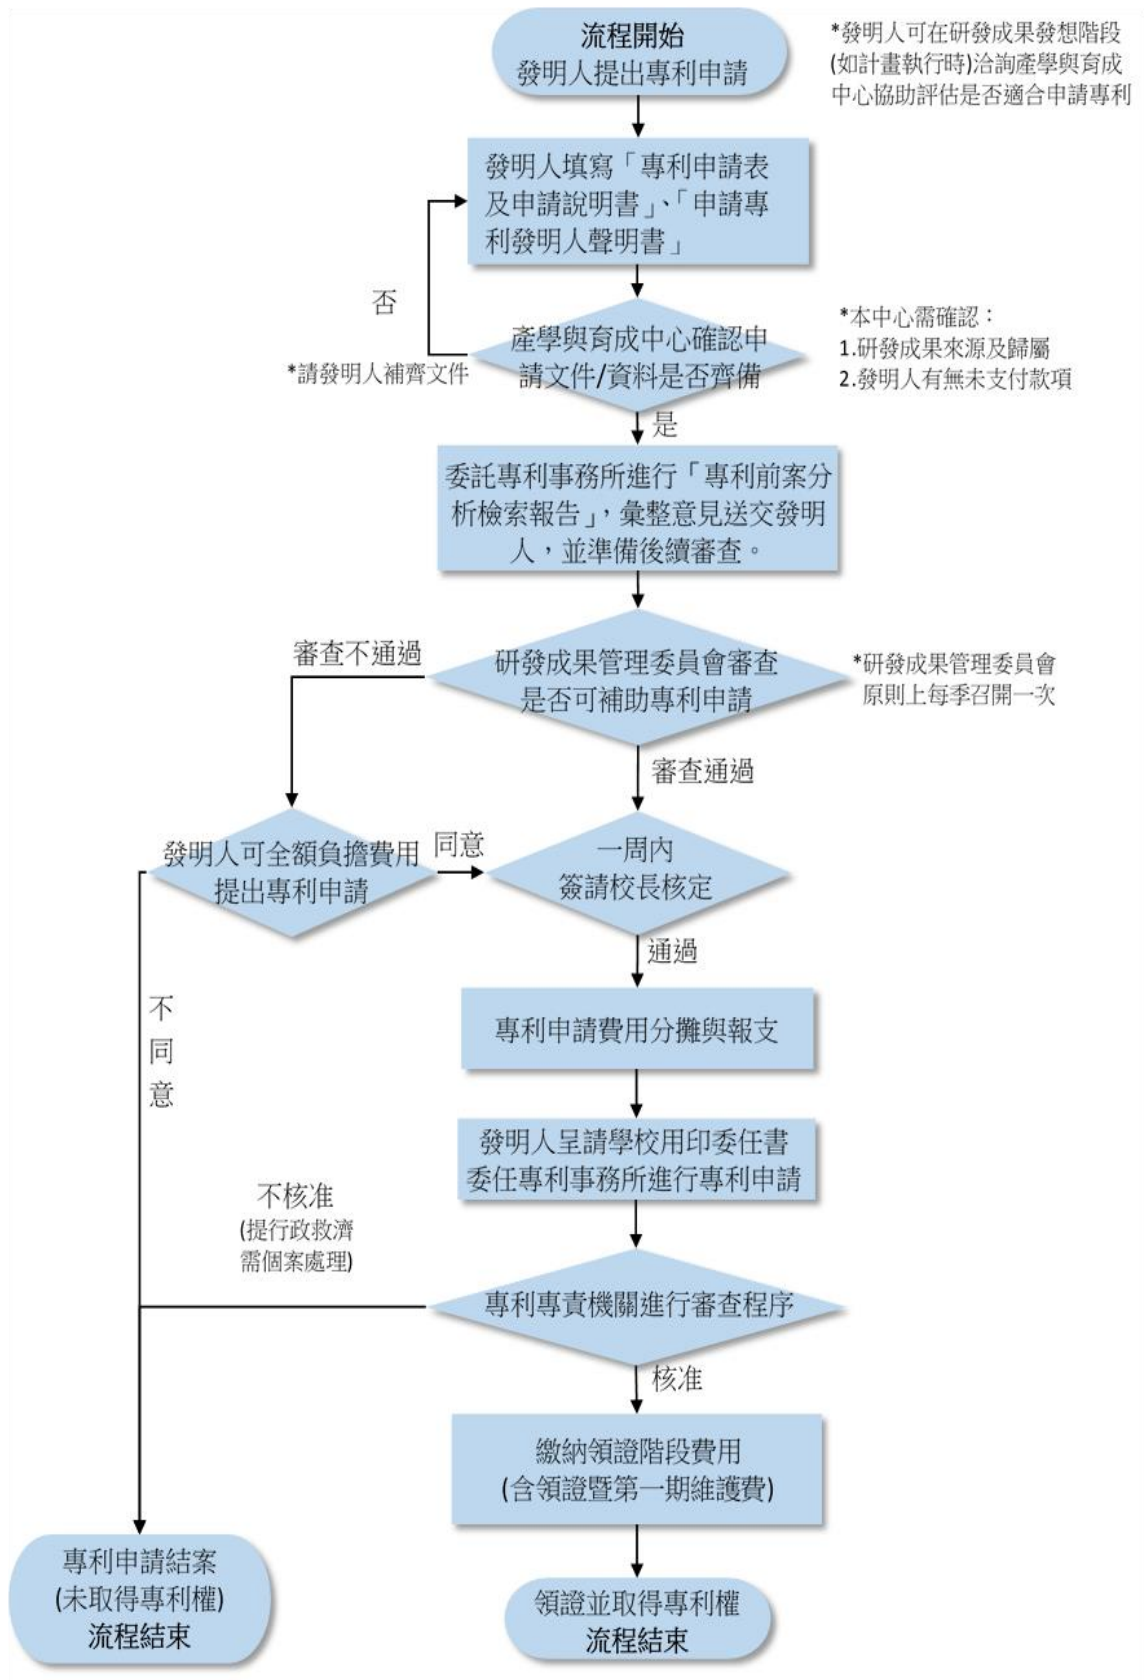

另發明人或創作人將其職務上完成之研發成果，以個人名義申請中之專利或申請而已取證之專利（職務專利），應無償讓與本校。

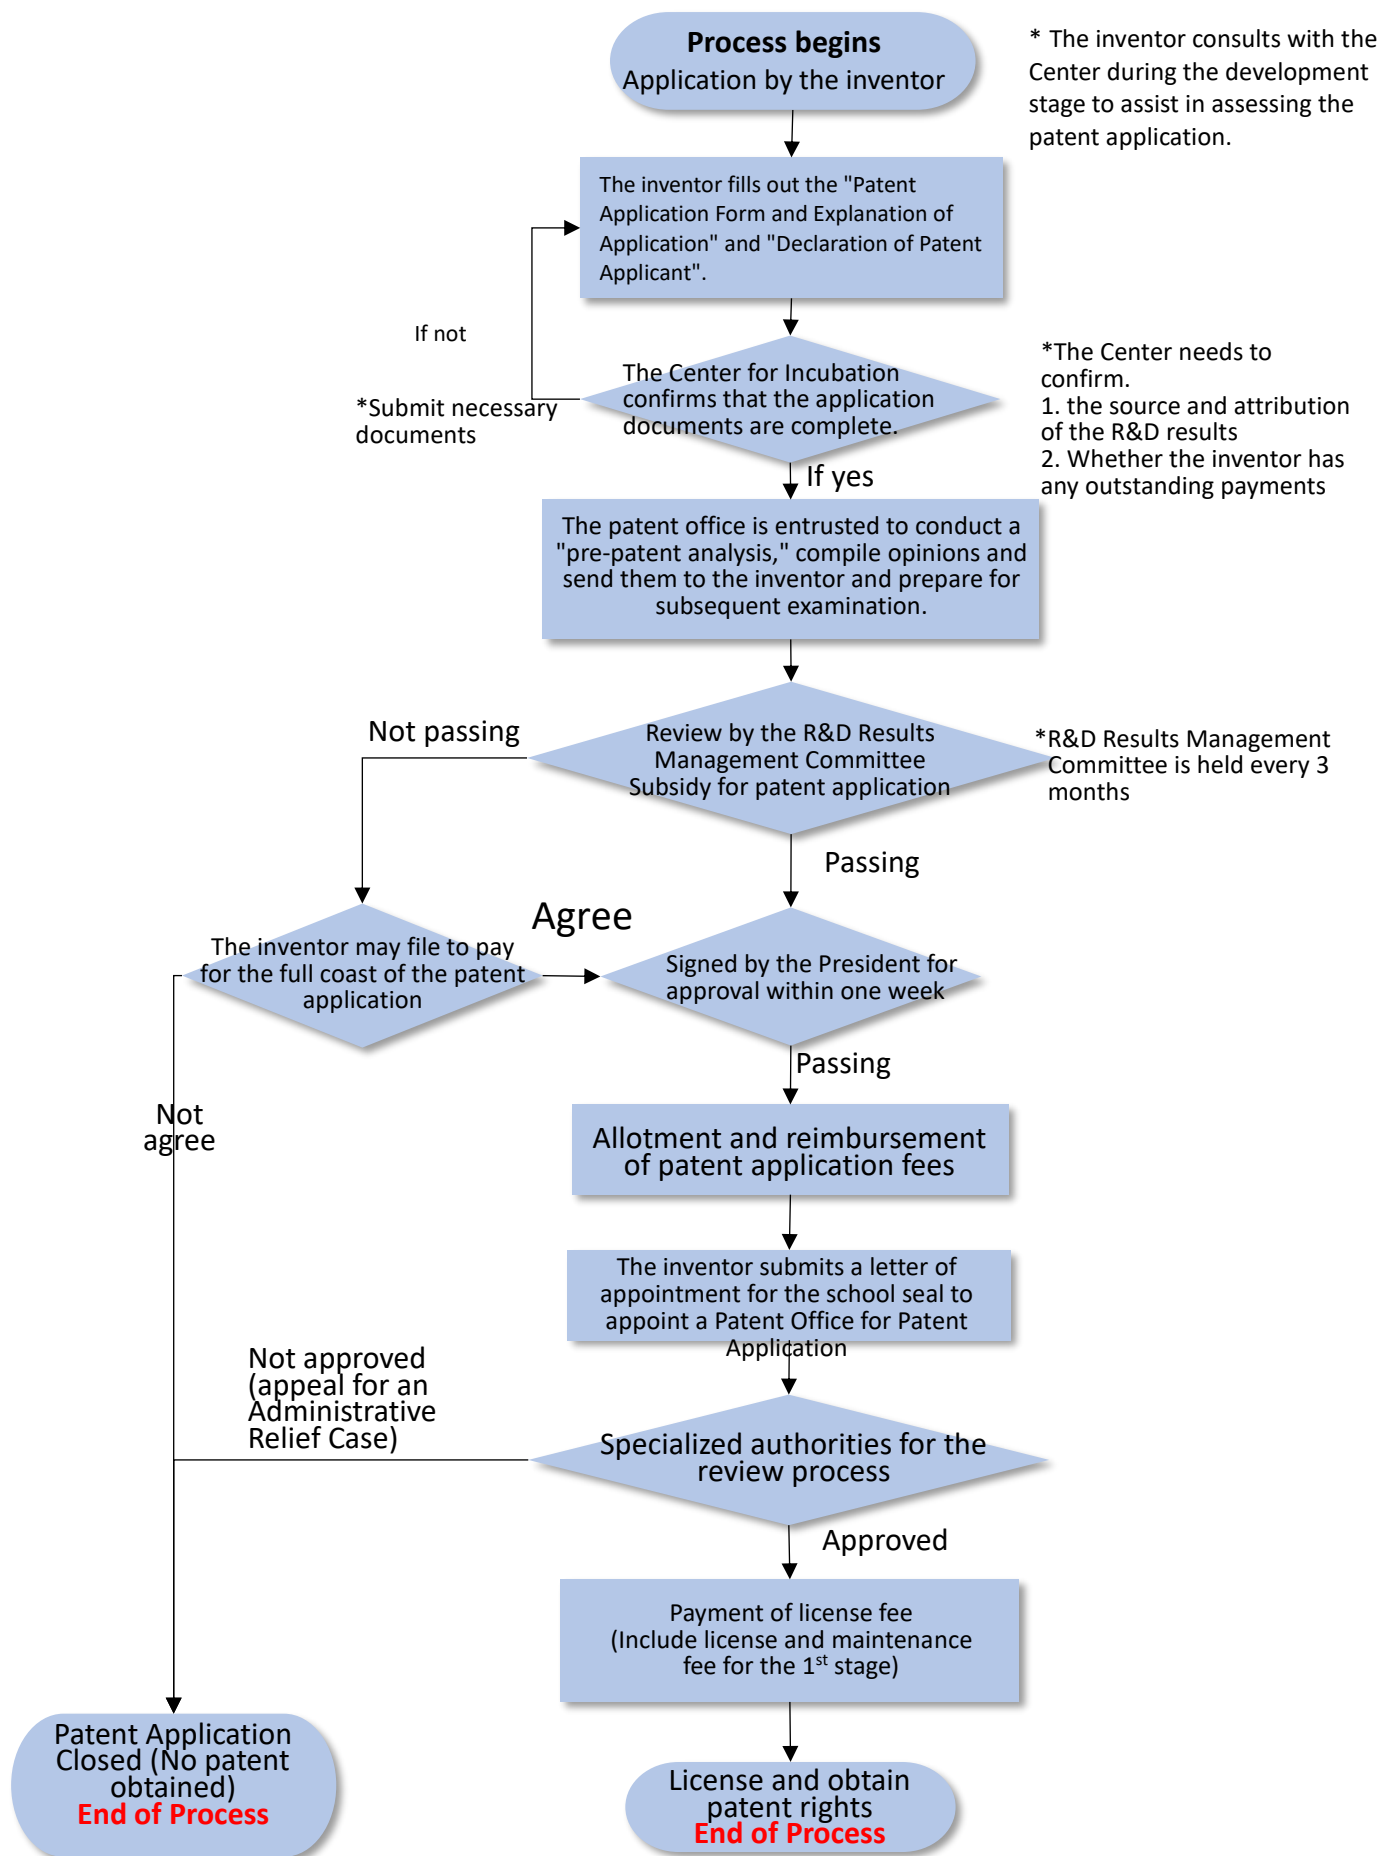

Meanwhile, for the R&D results generated by inventors or creators while employed by THU, the pending patent applications filed in their own names or patents issued upon the application (employee patent) shall be assigned to THU without consideration.

All English lessons

為提昇學生英文程度，增加學生就業競爭力，除開設英語語文課程外，並訂定「東海大學鼓勵教師以英語授課辦法」（以下簡稱本辦法）鼓勵教師以英語講授一般課程。鼓勵範圍以選修課程、研究所課程及通識課程為原則，但不含規定以英語授課之課程、非講授類課程（實驗、實習、設計、專題討論、演說等性質之課程）及教師以英語為母語授課之課程。採「英語授課」之課程內容須以全程英語教學方式授課，其方式包括教材採用英語書籍，授課、研討及作業皆採用英語方式為之。本校專兼任教師除歸屬系所限定以全英語授課者外，教師擬以英語授課者，請於前一學期配合開課作業，經系（中心）、院課程委員會審議通過，教務長核准後每一授課時數加發 0.5 個鐘點費計算。外籍兼任教師如有特殊卓越學術貢獻者，得依行政程序由教務長核准鐘點費另計。核准以英語授課之課程由授課教師於開學前在本校校園網路教務系統公告教學內容大綱，以便學生選課。

To enhance student's English proficiency and increase employment competitiveness, Tunghai University, besides offering English language courses, also stipulated "THU Regulations to Encourage Courses Taught in English" (hereinafter the Regulations). In principle, the range under the said encouragement includes elective courses, graduate courses, and general education courses. It, however, excludes courses required to be taught in English by nature, such as non-lecture courses (i.e., experiment, internship, design, seminar, and speech-related courses) and courses taught by faculty whose mother tongue is English. The "English-taught courses" must be conducted in English throughout the course, including the teaching materials, lectures, seminars, and assignments. Each of these elements must be completed in English. Apart from those whose respective department restricts teaching in English only, the University's full-time and part-time faculty who plan to pursue teaching in English should propose it in the previous semester and comply with the course offering process. Once approved by the Department (Center) and College Curricular Committee and Dean of Academic Affairs, the faculty will receive an additional 0.5 hourly pay. Upon approval of the Dean of Academic Affairs, part-time foreign faculty with exceptional academic contributions may have an honorary difference in hourly pay calculation after administration procedure. Approved English-taught courses will be posted online before the semester begins to facilitate course registration/sign-up.

3.4 遠距教學課程

Distance Learning Courses

隨著網路虛擬世界和社群平台的發展，全球化和地球村的時代來臨，人類的思維與知識的發展早已不受地域限制，教育也不再限縮於教室或學校內，使得線上課程蔚為風潮，各大學爭相開設課程，已形塑新的教學氛圍，而如何開設遠距教學課程、運用科技工具來輔助教學，成為新進教師的一大挑戰。

With the development of the internet, virtual worlds, and social media platforms, the era of globalization and the global village has arrived. Human thinking and knowledge are no longer constrained by geographical boundaries, and education is no longer confined to classrooms or schools. As a result, online courses have become increasingly popular, with universities worldwide competing to offer them, shaping a new teaching environment. In this context, designing and delivering distance learning courses and effectively utilizing technological tools have become significant challenges for new faculty members.

東海大學教學發展中心致力於協助老師開設遠距教學課程，透過教學設計將影音教材碎片化，明確標示各單元教學節點，再配合教學活動及合作學習策略等，讓學習者在遠距教學中保有實質參與的特性，並且不受時間、空間的限制，自由調配學習時間，靈活規劃學習進度，用更高的效率完成課程與精進自我，充分結合自主學習模式，完善網路大學的核心概念。

The Center for Teaching and Learning Development of THU is dedicated to assisting teachers in delivering distance learning courses. Through instructional design, audiovisual materials are segmented into manageable parts with clearly marked teaching points for each unit. Combined with teaching activities and cooperative learning strategies, this approach ensures that learners remain actively engaged in distance learning without being constrained by time or location. Students are empowered to manage their own study schedules flexibly, plan their learning progress independently, complete courses more efficiently, and enhance their skills. By fully integrating independent learning models, the center aims to strengthen the core concept of an effective online university.

對遠距教學課程有興趣的新進教師，可以參考教育部「專科以上學校遠距教學實施辦法」瞭解遠距教學課程的定義，若想進一步瞭解教育部遠距教學課程的課程設計重點，也可以至「教育部遠距教學交流暨認證網」的數位課程認證專區瀏覽相關資訊，以上資訊皆歡迎與教學發展中心諮詢，謝謝！

Newly appointed faculty members who are interested in developing distance learning courses may refer to the Ministry of Education's *Regulations Governing Distance Learning for Institutions of Higher Education* to better understand the official definition of such courses. For further information on the key principles of course design as outlined by the Ministry of Education, please visit the Digital Course Certification section on the *MOE Distance Learning Exchange and Certification Platform*. For any questions or guidance, feel free to contact the Center for Teaching and Learning Development. Thank you!

Q1: What do THU Purchasing Regulations apply to?

- Construction work – New construction, extension, reconstruction, repair, maintenance, or tearing down-- above or under the ground.
- Property – All types of machinery, equipment, books, articles (except raw and fresh agricultural or fishery products), acquisition of real estate, and rights of use for non-real estate.
- Service – The contracts for professional services, technical services, information services, training, maintenance works, and labor.

Q2: What budget items need to go through purchasing procedures?

- Budgetary accounts under the Accounting Office’s supervision, such as donations, government grants, subsidies, and various projects. Upon approval of the purchase, the contracting process, construction (or delivery), and acceptance process should then be carried out accordingly.

Q3: What to do if the “Unit Price” field in the accounting system does not accept a non-integer figure?

- You can specify the actual quantity and unit price in the field of “Full Name and Specifications,” then fill the total amount in the area of “Unit Price” and 1 in the field of “Quantity.” The system will automatically calculate the “Total Amount.” For example, fill in the “150 copies of purchasing process handbook * NTD 25.5” in the field of “Full Name and Specifications,” NTD 3825 in the field of “Unit Price,” and 1 in the field of “Quantity.” Then the system will automatically calculate the total amount (NTD 3825).

Q4: For the purchase of printing materials, is it possible to advance the date of submitting the purchase requisition and purchase requests?

- When printing matter more than NTD 100,000, please specify the meeting’s name and date (or exhibition). Also, process requisition and proofreading concurrently to avoid delay.

Q5: What is the date to put on the contract?

- Preferably the date of submitting the request for approval (RFA). Or else put the date of an approved request with a note indicating “a postponed contract-signing.”

Q6: Which purchase items need to attach catalogs?

- Furniture, air-conditioner, camera, television, and instruments. For customized furniture, a description of the material is necessary.

Q7: Notices regarding “limited bidding.”

- All supportive documentation should be original. A copy needs the marking of “Identical to the original.”
- As in Subparagraph 2 in Paragraph 1 of Article 22 of Government Procurement Act:
 - (1) Please explain when applying that “no reasonable alternative or substitute exists.”
 - (2) The agent should provide proof of dealership and valid length because the dealership might be transferable.
- As in Subparagraph 4 in Paragraph 1 of Article 22 of Government Procurement Act:
 - (1) Please explain when applying that a change of supplier “would affect compatibility or interchangeability with already existing supplies, services, or installations.”
 - (2) The documentation usually refers to property management records and application-related contracts; these should be specified when applying.

Q8: Notes regarding the supplier’s quotation

- With property or service(s) above NTD 100,000 and below NTD 500,000, the head of the office should summon relevant personnel to hold a bidding. The unit intending to purchase should obtain at least three suppliers’ quotations beforehand, study, and compare the differences carefully.

Q9: When to use “Demand Specification Form” and “Demand Specification Evaluation Form”?

- The office should prepare a “Demand Specification Form” when purchasing items with special requirements (i.e., no model specifications, must be customized, or any other factors). This form should be given to the supplier to prepare for the quotation for review afterwards. “Demand Specification Evaluation Form,” on the other hand, is used at the price comparison meeting to confirm that all three (or more) suppliers’ quotations are on the same basis. Please go to THU’s Accounting, Purchase Requisition and Purchasing Management System to download by clicking “Comprehensive Query” and then “Download Samples of Purchasing Documents.”

Q10: When the purchased item is delivered, or construction work is completed, who should carry out acceptance procedures?

- Initial acceptance check (more than NTD 1,500,000) or official acceptance check (less than NTD 1,500,000), the head of the office must summon related users and the person in charge of the purchase to check the specifications and quantity of the purchased item. The head of the office must be the PI to ensure quality and functions.
